### PROFESSIONAL SUMMARY

Senior Full Stack Developer with 19+ years of experience delivering scalable web applications and cloud-native solutions using React, Node.js, TypeScript, AWS, GraphQL, and serverless architectures to drive performance, security, and cross-team collaboration.

### WORK EXPERIENCE

#### **Carnera Technologies**

May 2024 - Present  
Pune (Remote)

Technical Architect

- Designed and implemented a vendor prequalification portal using NestJS and React, delivering role-based access control and multi-stage workflows to improve vendor onboarding and compliance, aligning with full stack development and security requirements.
- Integrated Microsoft Dynamics 365 and optimized APIs and client-side rendering for improved performance and search/filter capabilities; implemented Infrastructure as Code and Serverless Framework patterns with CloudWatch and SNS for monitoring and alerting.
- Autodesk (Contingent)
- Developed IaC and serverless microservices using Serverless Framework, AWS Lambda, API Gateway, Route53 automation, CloudFormation custom resources, and CloudWatch alerts to automate infrastructure tasks and improve operational reliability.

#### **Tata Consultancy Services**

Aug 2022 - Apr 2024  
Hyderabad

Associate Consultant

- Led a frontend team to build a Proposal and Contract System using React, TypeScript, Apollo Client, and GraphQL; implemented secure authentication with Azure AD and integrated third-party APIs to meet enterprise security and identity requirements.
- Built Node.js Lambda backend services and API Gateway endpoints, contributed to TDD and Technical Design Documents, and integrated Mapbox for location-based functionality, demonstrating strong full stack and cloud-native development experience.

#### **West Agile Labs**

Dec 2017 - Jul 2022  
Hyderabad

Associate Technical Lead

- Architected and developed a Windows-based operations app and reusable React UI components, designed RESTful Node.js APIs and authored SQL queries to support backend workflows; managed a 3-member team and led sprint planning to deliver features on schedule.
- Implemented maintainable code patterns and optimized front-end performance, supporting product-driven iterative development and cross-functional collaboration.

#### **Wenable Technologies**

Dec 2014 - Nov 2017  
Hyderabad

Senior Software Engineer

- Built a cab booking platform with mobile apps and admin portal using PHP backend, MySQL, and real-time tracking integrations; designed admin and finance reporting modules and implemented driver assignment logic to support operational scale.
- Developed backend scripts and optimized database queries to improve transaction throughput and reporting accuracy.

#### **Helios & Matheson (Tech Mahindra)**

Jul 2014 - Nov 2014  
Bengaluru

Senior PHP Developer

- Delivered PHP-based client applications and collaborated with cross-functional teams to maintain and enhance enterprise web systems, focusing on reliability and maintainability.

#### **Swayam Group**

Sep 2013 - Jul 2014  
Hyderabad

Senior PHP Developer

- Improved and maintained PHP web applications, performed bug fixes and feature enhancements to sustain business operations.

**Vinutnaa IT Services India Pvt Ltd**

Senior Software Engineer

Jun 2008 - Aug 2013

Kakinada

- Full stack development for enterprise clients, designing and building server-side components and front-end interfaces with attention to scalability and integration.

**Nyros Technologies Pvt Ltd**

Software Engineer

Oct 2006 - May 2008

Kakinada

- Contributed to multiple software projects, gaining foundational experience in full stack development, team workflows, and delivery practices.

**EDUCATION****Godavari Institute of Engineering and Technology**

Bachelor of Technology, Computer Science and Information Technology

Jun 2001 - May 2005

Rajahmundry

**SKILLS**

---

React.js   Node.js   TypeScript   JavaScript   Next.js   Redux   NestJS  
GraphQL   Apollo Client   AWS Lambda   API Gateway  
Serverless Framework   AWS S3   CloudFormation   CloudWatch   SNS  
Azure AD   MySQL   MS SQL   RESTful APIs   Serverless Architecture  
TDD   Agile   Playwright
