

HARI KRISHNA ANEM

TECHNICAL ARCHITECT

PROFESSIONAL SUMMARY

Technical Architect with 19+ years of experience in designing and delivering scalable, high-performance web applications and distributed systems. Brings 8+ years of modern expertise in React.js, Node.js, TypeScript, Next.js, AWS, and GraphQL, complemented by a strong foundation in PHP, MySQL, JavaScript, and WordPress.

EXPERIENCE

Carnera Technologies — Harkins Builders

Hyderabad

Technical Architect

May 2024 – Present

- Built the Harkins Builders vendor prequalification portal from start to finish using Nest.js, React.js, and TypeScript, supporting 500+ vendors and 10+ internal users
- Implemented role-based access for different user types (Admin, Reviewer, View-only, Vendor Admin, Vendor User) with proper permission checks across multiple APIs
- Designed a 4-step approval process (registration → admin review → department review → final approval) that helped reduce vendor onboarding time by around 40%
- Connected the system with Microsoft Dynamics 365 CRM using multiple APIs to keep vendor data in sync and avoid duplicate entries

Carnera Technologies — Autodesk University

Hyderabad

Technical Architect

October 2024 – Present

- Worked as a contract technical architect for Autodesk, focusing on cloud automation projects
- Set up infrastructure using Serverless Framework and CloudFormation, creating 25+ AWS resources along with CloudWatch alerts and SNS notifications
- Handled Drupal migration from Pantheon to Autodesk's internal AWS account using CDK, setting up required AWS resources through IaC

Tata Consultancy Services — Proposal and Contract System

Hyderabad

Associate Consultant

Aug 2022 – Apr 2024

- Led a frontend team of 3 engineers, guiding them and converting UX and client requirements into 20+ user stories each sprint
- Built a React.js application using TypeScript, Apollo Client, and GraphQL, maintaining over 90% unit test coverage with TDD
- Developed backend services using Node.js Lambda functions and integrated multiple third-party APIs, supporting 1000+ daily submissions

FRONTEND

React.js · JavaScript · TypeScript · Redux · Next.js

BACKEND

Node.js · Nest.js · PHP · GraphQL · MS Dynamics 365 · Python

CLOUD & DEVOPS

AWS Lambda · AWS S3 · API Gateway · Serverless

DATABASES

MySQL · MS SQL · PostgreSQL · IndexedDB

TOOLS

Apollo Client · Playwright · TDD

West Agile Labs — CypressLawn

Hyderabad

Associate Technical Lead

Jan 2018 – Jul 2022

- Designed and built a Windows desktop application for funeral and cemetery management, used across 50+ memorial parks in the US
- Created a reusable UI component library with 40+ components, helping speed up development by around 30%
- Improved performance by optimizing 100+ SQL queries and stored procedures, making reports generate about 45% faster
- Worked closely with the Product Manager to deliver 25+ customer-requested features every quarter
- Built REST APIs using Node.js for 30+ endpoints with proper versioning and error handling
- Managed a team of 3 engineers and handled sprint planning, retrospectives, and code reviews in a 2-week agile cycle

Wenable Technologies — Rydz

Hyderabad

Senior Software Engineer

Jan 2015 – Nov 2017

- Built a cab booking platform with passenger and driver mobile apps along with an admin web portal, handling 5K+ rides every month
- Developed PHP backend services for booking and driver assignment using a location-based matching system, reducing pickup wait time by about 25%
- Created admin and back-office modules for fleet management, driver onboarding, and handling customer issues

Helios & Matheson — Client Application Development

Bengaluru

Senior PHP Developer

July 2014 – November 2014

- Built PHP applications covering 4 key modules focused on content management and reporting
- Worked closely with a team of 6+ engineers to deliver and maintain production systems with releases every two weeks

Swayam Group — Drupal Web Applications

Hyderabad

Senior PHP Developer

September 2013 – July 2014

- Upgraded and improved PHP web applications built on Drupal 7, delivering 10+ feature modules across 3 client projects
- Maintained existing systems and fixed 50+ production issues, improving overall stability

Vinutnaa IT Services India Pvt Ltd — Enterprise Drupal Development

Kakinada

Senior Software Engineer

June 2008 – August 2013

- Provided ongoing support and maintenance, ensuring applications ran without major issues
- Participated in client discussions to understand requirements and suggest better technical solutions

Nyros Technologies Pvt Ltd — Software Development Projects

Kakinada

Software Engineer

October 2006 – May 2008

- Worked on 5+ software projects including web portals, internal tools, and client-facing applications
- Gained hands-on experience with PHP, MySQL, JavaScript, and AJAX while delivering real features in an agile setup
